Payzone iWL251 Terminal Installation Guide

We hope you enjoy
using your new Payzone
iWL251 Terminal!

A Quick Guide to Your New Payzone iWL251 Terminal

Hello...

welcome to Payzone, glad to have you on board.

What's inside...

- ✓ Plugging in the power supply
- ✓ Going through the installation mode
- ✓ Need More Help?

We're here to help.

For any installation queries, please get in touch with our installation team on:

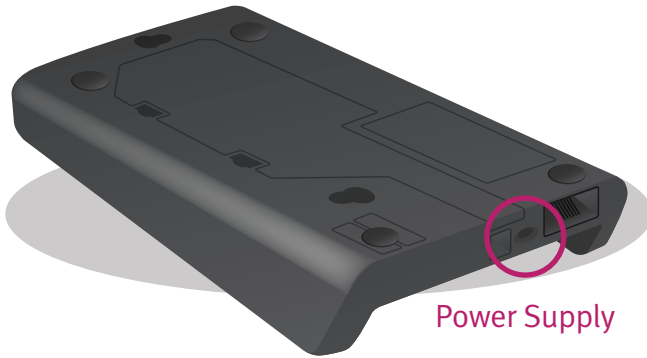

01472 255 750

Opening Hours: Monday – Thursday 08:30am - 17:30pm.

Let's get you started

Step 1 - Plugging in the power supply

Plug the power supply into the base unit in the circular port, as per below;

Step 2 - Place the terminal onto the base

Once the terminal is placed on the base, the terminal will automatically power up.

Step 3 - Going through the installation mode

Once the terminal is placed on the base, the terminal will automatically power up.

Terminal Installation
Key In Merchant No.
(6 digit number)
and then press ENTER

Type in the Payzone merchant number and then press enter. The machine will then dial into GEMS.

Once this has been completed the terminal will display the READY prompt showing the merchant number. Please try a test transaction of 1p to ensure the terminal is fully installed.

*6 digit Payzone Merchant number can be found on your 'Payzone Welcome' email.
